"A diversified international investment firm with a global perspective for global excellence"

BG GLOBAL: ISAMBANE SECURES SERITI POWER AS A KEY BLUE-CHIP CLIENT

BG Global is humbled to share that its key investment firm Isambane Mining has reached another game-changing milestone, securing a prestigious long-term contract with Seriti Power for Kriel Rehabilitation services. This five-year agreement cements Isambane's reputation as a leader in environmental restoration, breathing new life into previously mined areas and setting new standards for sustainable mining in South Africa.

A Landmark Deal in Responsible Mining

This contract marks Seriti Power as a key blue-chip client for Isambane, underscoring its expertise in large-scale mine rehabilitation. The extensive scope of work includes land restoration, environmental rehabilitation, and sustainable aftercare, ensuring that once-active mining sites are transformed into thriving, ecologically sound landscapes.

The approach goes beyond compliance—it's about pioneering innovative rehabilitation techniques that restore biodiversity, protect natural resources, and leave a positive environmental legacy.

Empowering Communities: More Than Just Rehabilitation

But the mission doesn't stop at the land—it extends to the people. As part of its Social and Labor Plan (SLP) commitments, the company is prioritizing employment opportunities for local communities, ensuring that those impacted by mining operations directly benefit from this rehabilitation initiative.

In addition, our commitment is to ensure that our investee firms drive Economic and Social Development (ESD) initiatives that empower small businesses, create skills development programs, and foster long-term economic growth. By investing in local communities, the company is ensuring that this project is not just about land restoration, but about revitalizing lives and creating lasting change.

A Future Built on Sustainability & Innovation

This contract is more than just a business win—it's a testament of commitment to responsible mining, sustainability, and community upliftment. By partnering with Seriti Power, it is proof that mining companies can be powerful forces for environmental regeneration and socio-economic transformation.

With innovation, expertise, and a deep-rooted commitment to sustainability, the goal is not just rehabilitating land—it's reshaping the future of mining in South Africa.
